DETAILED ACTION

This is in response to amendment filed on 12/6/04 in which claims 1-12 are pending. The applicant's arguments have been fully considered therefore this case is in condition for allowance.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior arts of record fail to anticipate or render obvious the following recited features: determining a frequency deviation between the first frequency and the second frequency based on the de-spread received synchronization signal; and fine-tuning the second frequency to the first frequency based in part on the de-spread received synchronization signal as recited in claim 1

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kaku U.S. patent No 6,104,748 teaches a spread spectrum signal receiving apparatus.
